Github: github.com/suriya2109; Portfolio: [Suriya Portfolio](#); Leetcode: [Suriya21072109](#)

Frontend Engineer with 3+ years of experience building **scalable, high-performance** web applications using **React, Angular, TypeScript, JavaScript, Tailwind, and REST APIs**. Delivered measurable product impact including **40% faster UI responsiveness** and **supporting millions of monthly transactions** across enterprise FinTech applications. Skilled in **component-driven architectures, SEO, accessibility, lazy loading, and modular design** to achieve clean, maintainable UIs. Strong communicator and team collaborator, backed by leadership experience in Toastmasters.

• Technical Capability

Strategic Front-End Engineering and Digital Experience Delivery

- Expertise in **React, Angular (v19), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind** for scalable web apps
- **Performance-first UI engineering** with lazy loading, optimized rendering & reusable component architecture
- **Cross-functional delivery** with design & backend teams; known for UI scalability and clean execution
- **AI-assisted development** using GitHub Copilot; strong continuous learning in DSA & System Design

• Current Role – Novac Technology Solutions. – Senior Software Engineer | July 2022 – Present

Frontend Architecture & Performance Engineering

- Component-driven architecture enabling scalable and maintainable UI systems.
- Drove UI/UX modernization and **legacy system upgrades** to improve reliability & performance.
- Enabled **AI-enhanced user journeys** and faster feature delivery through automation tools.
- Partnered with cross-functional teams to deliver **business-aligned** digital experiences.
- Scalable **component systems, Design patterns & code reusability, Efficient state management (RxJS / React Hooks)**

UI Quality & Performance Principles

- Semantic HTML5 and **responsive UI** with consistent layouts, spacing & visual hierarchy
- Performance-first delivery: lazy loading, optimized media, **smooth animations** & code splitting
- **Accessible & SEO-ready** interfaces with proper roles, labels, contrast & metadata
- **Reusable components**, clean modular code, cross-browser testing & pixel-perfect design execution

• Project Experience

Project Name	Description of Work	Impact
Travel Insurance Consultants (TIC)	• Built a React + Next.js travel insurance platform with multilingual, modular UI • Developed key Quote-to-Claims workflows using reusable components, boosting completion rates • Improved workflow completion rates by simplifying form journeys and minimizing drop-offs.	• Delivered a responsive, multilingual platform improving global accessibility. • Reduced claim drop-offs and enhanced user trust through optimized UI workflows.
Novac Technology Solutions – Digital Transformation Division	• Developed scalable front-end solutions for FinTech, InsurTech & AI-driven products including ZIVA®, STATIM®, AXLE™, MIGOTO AI™ using React, Next.js & Angular • Delivered responsive UI architectures through strong collaboration with product & design teams, while enhancing corporate portals to improve brand engagement	• Strengthened Novac's position as a leader in AI-driven digital transformation.
Shriram Finance Ltd – Retail & Payment Platforms	• Developed Angular-based FinTech modules (Recharge, FASTag, Loan Repayment, Insurance, etc.) powering high-transaction flows • Built vehicle & insurance marketplaces using Angular, RxJS & BEM for scalable UI • Integrated real-time bill payment APIs and product comparison dashboards • Managed CMS-driven customer journeys for faster content + campaign rollouts	• Enhanced UI responsiveness by 40%. • Improved user engagement and scalability. • Supported millions of monthly transactions across 15+ integrated modules.

Shriram Life Insurance Ltd (SLIC)	• Built responsive Angular UI modules with RxJS & Chart.js for policy dashboards • Integrated REST APIs for real-time policy management & analytics • Developed interactive calculators — BMI, Children’s Savings, Smoking, Human Life Value, Double Your Money, Savings Plans, Retirement, and HRA Calculators. • Enabled rapid updates through CMS-managed customer journeys	• Delivered intuitive, high-performing calculators that boosted lead conversions. • Improved customer engagement and streamlined policy comparisons.
Shriram Asset Management Company (SAMC)	• Built a Next.js + React investment platform with scalable UI and React Hooks for state management • Delivered fund discovery, NFO, NAV tracking, SIP & goal calculators to improve investor decision-making. • Integrated CMS-driven learning & compliance journeys (KYC, SEBI, AMFI)	• Improved SEO, accessibility & performance for faster navigation and higher engagement • Enhanced data transparency through real-time fund tracking.

• Education

B.E., Mechanical Engineering; Dhanalakshmi Srinivasan Engineer College, Perambalur - *July 2016 - April 2020*

Undergraduate first class- CGPA: 7.24 / 10.

• Volunteer Activities

Toastmasters International (Jul 2023 – Present)

1. **Roles:** Member & Area Public Relations (PR) Officer (served twice)
2. **Key Contributions & Achievements:**
 - Led PR campaigns and club communications improving visibility & participation
 - Delivered multiple speeches, strengthening communication & leadership skills

• Awards

Awards

- **Quarterly Star Performer:** Awarded for **successful delivery of three critical projects** with 100% on-time completion and zero major defects; showcased **project management, problem-solving, and quality-focused execution**.
